

A MECHANIC IS WORKING ON THE CAR OF A SURGEON. "HEY, DOC, LET'S BE HONEST. YOU AND I DO THE SAME JOB, WHY DO YOU GET PAID SO MUCH MORE?" DOCTOR RESPONDS: "I WORK WHILE THE ENGINE'S RUNNING."

As a PR Firm, we work the same way. In real time. Most health systems don't have the luxury of calling time out, or turning the engine off so that you can have time to reset the message. Revive knows this. Everyday health services companies face major "life events." Whether it's declining reimbursements, unrest over healthcare costs, rising debt, or anything else in this constantly changing environment, we work with you to keep your message fluid, relevant and true. We don't hope for what things could be, we help make the best out of what is. For you, your brand, and your public.
